

# European Shortsea Conference 2016

---

## Session 2: Shortsea Shipping Demand

Carlos Castán  
Corporate Responsible for External logistics  
Celsa Group™

Barcelona, 29th September 2016

# Introduction to CELSA Group

**CELSA Group™ is the largest Spanish private steel manufacturer and 3rd European long products manufacturer**

**We strive to be a **global steel reference** through a **ground-breaking** approach delivering **best-in-class service to our clients****

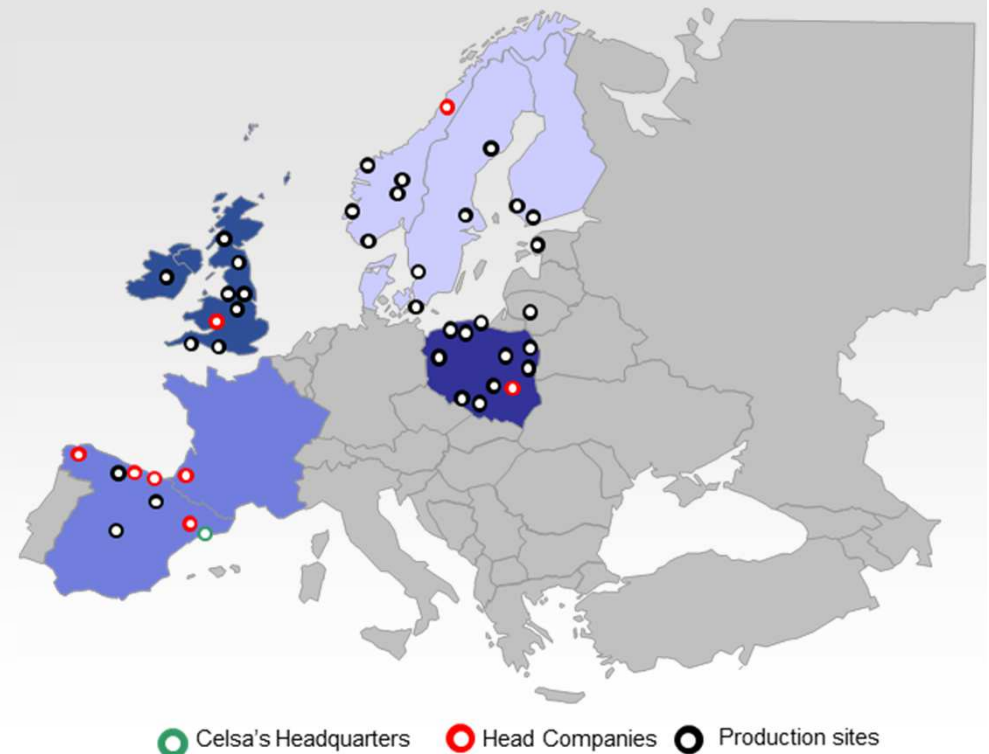

Founded in 1967, CELSA Group™ employs 9.150 people in 11 European countries

We are based in 6 business groups with steel mills, rolling mills, transform plants, service and distribution centers, and recycling plants

CELSA Group™ only produces steel in electric arc furnaces, from ferrous scrap as raw material for 100% of our products

CELSA Group™ closes the recycling cycle of steel, from sorting, recovering and melting scrap to producing and transforming into new products

CELSA Group™ contributes to the environment by recycling 8 million tons of scrap, using the most sustainable technology

Together, Building our Future

# CELSA Group™ and Short Sea Shipping

CELSA Group™ moves around 4,5 million tons per year by Short Sea Shipping, 30% of total volume of raw materials and finished products, with different issues to manage in each option
